Tourist Attractions Introduction

Uluru

Formerly known as Ayers Rock, Uluru is made of sandstone about half a billion years old. It stands 348 metres high and has a circumference of 9.4 km.

Kings Canyon

Kings Canyon is a natural wonder located approximately halfway between Alice Springs and Uluru - at the heart of Australia's Red Centre.

Forged over 440 million years from layers of sandstone, shale and rock, the canyon soars 270 metres above sea level, then plummets to the Garden of Eden below where ancient flora and fauna thrive along a permanent line of rock pools.

Special Experience - Field of Light Dinner

As the sun sets on the horizon to the music of a didgeridoo, enjoy gourmet canapés and chilled sparkling wine. As darkness falls and the coloured lights of the 50,000 glass spheres gently come to life, join your table of fellow travellers for an exceptional three-course buffet menu infused with bush tucker flavours.
