# Itinerary Highlights

## AlUla – Elephant Rock

The Elephant Rock, also known as Jabal AlFil, one of AlUla's many geological marvels. Unlike the ornate, hand-carved facades of nearby Hegra's Nabataean tombs, the "trunk" and "body" of this monolithic red sandstone beast were hewn by natural forces — millions of years of wind and water erosion.

## AlUa – Hegra

### Saudi Arabia's first UNESCO World Heritage Site

Populated since before the 1st millennium BCE, Hegra is renowned for its more than 110 well-preserved burial tombs carved from desert rock in which the Nabataean elite were laid to rest.

## AlUla – Maraya

The state-of-the-art structure is covered in 9,740 mirrored panels reflecting AlUla's beauty, making it the largest mirrored building in the world, according to Guinness World Records.

## Riyadh - Al Masmak

Surrounded by sand, this squat fortification was built around 1865 and is like a scene out of the movies: a big fortress representing an empire.
